

## **NO MOBILE DEVICE POLICY**

At Adventure Club, we take the safety and innocence of the children in our care seriously. With first exposure to damaging and explicit digital material happening earlier and earlier in the lives of children, often through cell phones and other internet-connected electronic devices, we would like to take every measure we can to ensure Adventure Club will not be the place where any damaging exposure occurs. **It is the policy of Adventure Club that children in attendance do not have unsupervised access to cell phones or devices while at Galt Bible Church for the purpose of participating in Adventure Club.** We ask that if your child has a cell phone or other device, it please be left at home or kept in your, the parent or guardian's, possession. In the event your child needs to get in touch with you, any of our leaders would be happy to allow your child usage of our cell phones or the phone in the church office for this purpose.

We require your signature below to acknowledge your receipt and understanding of this policy, as well as your agreement to send your child to Adventure Club with no cell-phones or electronic devices in their immediate possession.

Respectfully,

The Galt Bible Church Adventure Club Team
